

# Tracing Worksheet

This worksheet is designed for tracing practice. It consists of four vertical columns. Each column starts at the top with a cloud and ends at the bottom with an airplane. The clouds are colored as follows: light blue, medium blue, grey, and dark grey. The airplanes are colored as follows: yellow and teal, purple, orange and red, and yellow and green. A series of dashed black lines connects each cloud to its corresponding airplane, forming a zig-zag path that is intended for a child to trace.
