

Tracing Worksheet

This worksheet is designed for tracing practice. It consists of four vertical columns. Each column starts with a cloud at the top and ends with an airplane at the bottom. The clouds are colored as follows: light blue, light blue, grey, and grey. The airplanes are colored as follows: yellow and teal, blue, orange and red, and yellow and green. Between each cloud and airplane is a series of dashed black zigzag lines for tracing. The zigzag lines in each column are connected to the cloud above and the airplane below, forming a continuous path for the child to follow.
